Tokyo Institute of Technology TKT CAMPUS Asia Consortium Summer Program & Joint Educational Program -Call for Applications 2014-

Tokyo Institute of Technology (Tokyo Tech) invites undergraduate and graduate students from Tsinghua University in China and Korea Advanced Institute of Science and Technology (KAIST) in South Korea to apply to its 2014 Summer Program and Joint Educational Program.

Overview

Under the CAMPUS Asia Initiative of the governments of Japan, China and South Korea, Tokyo Tech is an active participant in and contributor to the TKT CAMPUS Asia Consortium, a joint education and research program with Tsinghua University and KAIST. As part of the Consortium's activities, Tokyo Tech will host the Summer Program and the Joint Educational Program. The objective of these programs is to provide students with the opportunity to participate in a lab-based research project, while taking some courses and have the credits they earn at Tokyo Tech be recognized at their home universities. Detailed Information about the programs can be found on the TKT CAMPUS Asia website at <http://www.ipc.titech.ac.jp/campusasia/index.html>. The Summer School, part of the Summer Program, runs for four weeks starting on July 1, 2014 and offers classes on various topics including Advanced Technology in Emerging Fields and the Japanese language. Tokyo Tech will issue an official academic record and award credits for courses taken upon completion of the program.

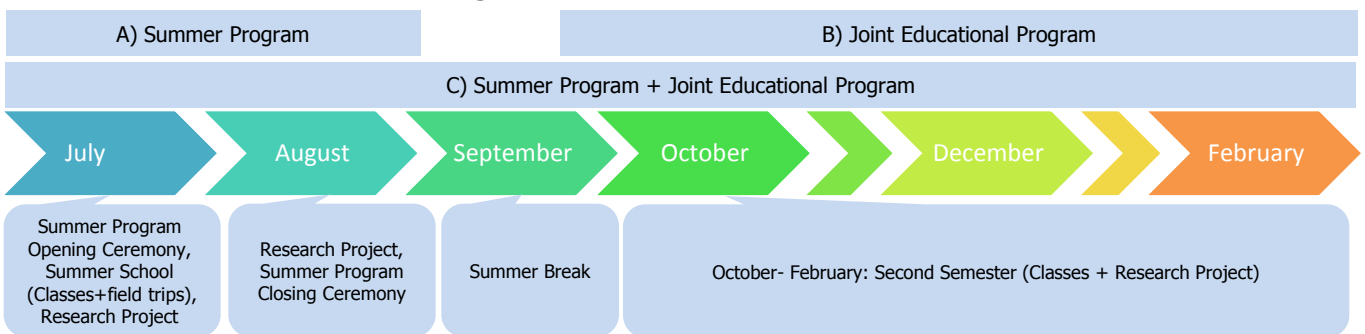

CAMPUS Asia Program Tracks and Scheduling

There are three different CAMPUS Asia programs or tracks:

- A) Summer Program (July 1 - late August)
- B) Joint Educational Program (October 1 - late February)
- C) Summer Program + Joint Educational Program (July 1 - late February)

Note: The period of stay varies based on each student's research plans and each student's home university's academic calendar. However, participants in the Summer Program are required to stay for 2 full months.

Schedule for TKT CAMPUS Asia Programs

Summer School

Cross- Cultural Bus Tour

Closing Ceremony

Program Overview

- Summer Program

Students are asked to arrive in late June so that they are able to start Summer School on July 1, which begins with a series of four-week-long courses taught in English. The details and syllabus will be posted to the TKT CAMPUS Asia webpage as soon as they become available. Tokyo Tech will issue an official academic record upon completion of the program. However, as this is a research-oriented program, participants should expect to spend a considerable amount of time in their academic advisor's laboratory. All students will present their summer research results and share their exchange experiences at the Closing Ceremony at the end of August. The program also holds off-campus activities such as factory tours and cultural excursions in July and August.

- Joint Educational Program

Students are asked to arrive in late September and undertake a research project in a laboratory under the supervision of a Tokyo Tech faculty member. Students who plan to be at Tokyo Tech for the entire second semester (October 2013 - February 2014) are required to register for courses as well. Tokyo Tech will issue a certificate to those who successfully complete the program upon request. Tokyo Tech will also issue an official academic record to those who have taken courses upon completion of the program, which should facilitate the recognition of credits at students' home universities.

Program Expenses

- **Tuition, Fees and Stipend:** University tuition and related fees for this program will be waived. Due to the limited number of scholarships sponsored by the Ministry of Education, Culture, Sports, Science and Technology (MEXT), only highly qualified students will receive a stipend of 80,000 JPY/month.

- **Accommodation:** Tokyo Tech will provide off-campus accommodation (free of charge) to students.

Program Eligibility Requirements

- **Enrollment at Participating Partner Universities:** Students must be enrolled at Tsinghua University or KAIST

- **Student Status:** Undergraduate students entering their final year in the Fall 2014 semester or master's course students in the top quartile of their academic class. Priority is given to graduate students for the Joint Educational Program.

- **Majors:** Engineering or Science

- **Number of Participants:** In principle, five students from each university will be admitted.

Application Details

- Application Deadlines

A) Summer Program: **January 31, 2014**

B) Joint Educational Program: **April 3, 2014**

C) Summer and Joint Educational Combined Program: **January 31, 2014**

- **Application Procedures :** Complete an online application at <http://www.ipo.titech.ac.jp/campusasia/index.htm>.

Program Coordinators: To apply to these programs, first contact to the coordinator at your home university.

- Tsinghua University: Contact Ms. Xiaoling Wu, Program Coordinator, Office of International Cooperation and Exchange by email at wuxiaol@tsinghua.edu.cn or by phone at (86)-1062794601.

- KAIST: Contact Ms. Jungmin An, Program Coordinator, Department of Mechanical Engineering by email at campusasia@kaist.ac.kr or by phone at (82)-423503267.

Changes or Withdrawal of Participation: In principle, all students are expected to participate in the entire duration of program set by Tokyo Tech. Changes or withdrawal of participation will only be considered due to unexpected circumstances. In such case, they must immediately notify the coordinator at their home university. Any cost incurred from change(s) or withdrawal should be covered by the student and his/her home university.
