

Technical University
of Denmark

Would you like to compete in GRØN DYST 2014?

GRØN DYST Student Conference

on sustainability
climate technology,
and the environment.
June 27, 2014

**REGISTRATION
OPEN**

Second Announcement

GRØN DYST brings into focus sustainability, the environment and climate technology in all of DTU's educational programs.

Engineers have a vital part to play in the building of a sustainable society and supporting social responsibility and a healthy environment. Sustainability thus requires consideration of "People, profit and planet".

Participate in GRØN DYST Student Conference and show the world that you can engineer solutions that will make a difference in the transition to a sustainable society.

Registration is now open for submission of your solution

Important Dates	
April 23, 2014	Registration closes. Deadline for submission of abstract draft
May 21, 2014	Deadline for submission of final abstract
June 27, 2014	GRØN DYST Student Conference
